

# Restore worn plastic to a clean polished finish!

**No Touch® Perfect Plastic™. The perfect cleaner & polish for not so perfect plastics.**

Clear and pigmented plastic surfaces can suffer from stubborn yellow stains, annoying fine scratches, insect splatter, haze and oxidation buildup.

Help your customers restore their smooth plastic surfaces with Perfect Plastic.™

It cleans and polishes plastic to a lustrous finish and restores clarity to plastic headlight lenses, motorcycle windshields, and wind deflectors — all while forming a water repellant, anti-static shield that resists fogging.

No Touch® Perfect Plastic™. not your ordinary plastic cleaner.
