

NOW THERE'S A SAFER ALTERNATIVE...

Introducing SaferScraper™ Plastic Scraper from Permatex®

This new tool is designed to be used for a variety of cleaning and scraping applications. Using a special hard plastic razor blade, SaferScraper™ is ideal for removing decals, bugs, tar and paint without scratching or harming the body paint underneath. It's also a great tool for removing gaskets from a plastic or aluminum flange.

Each blade has two edges and the holder is designed to fit standard metal razor blades if the job requires it. Unlike metal razor blades, SaferScraper™ is a safer alternative for your fingers and when working on painted bodywork. The durable plastic holder is designed to fit well in the hand for extra flexibility.

- Compact Merchandising
- Easy Add-On Sales
- Greate Impulse Sales Item at Counters

Includes 5 Blades
