## Technical Data Sheet

# Permatex® Disposable Nitrile Gloves

AAM Revised 03/08

### PRODUCT DESCRIPTION

Permatex® Disposable Nitrile Gloves are made from a 100% synthetic rubber that provides superior resistance to a wide range of solvents and hazardous chemicals. Nitrile gloves are an alternative for users with latex sensitivity. Permatex® Disposable Nitrile gloves feature textured fingers that provide a secure grip on dirty parts and tools. Lightly powdered, the gloves are easy to put on and take off. When superior chemical resistance is required, Permatex® Disposable Nitrile Gloves provide mechanics with ideal heavy-duty hand protection.

### PRODUCT BENEFITS

- Comfortable
- Chemical Resistant
- Textured Fingers
- Lightly Powdered
- Fits either hand
- Beaded cuff
- No Natural Rubber Latex Proteins

### TYPICAL APPLICATIONS

- Permatex Nitrile Disposable Gloves offer protection from greases, fuels, oils and many other types of solvents and acids.

### PHYSICAL CHARACTERISTICS

#### Glove Dimensions:

Part Number	Length, inches (mm) Nominal	Palm Width, inches (mm) Nominal
09184	9.8 (250)	3.7 (95)
09185	9.8 (250)	4.3 (110)
09186	9.8 (250)	4.7 (120)

#### Thickness, mils (mm) Nominal

Finger	5.1 (0.13)
Palm	4.3 (0.11)
Cuff	3.9 (0.10)

#### Physical Properties

Tensile Strength, PSI (Mpa) (Minimum)	2030 (14)
Elongation, % (Minimum)	500

#### Specifications

Sterility:	Non-Sterile
Intended Use:	Automotive, Industrial

Basic Material:	Nitrile Butadiene Rubber
FDA Status:	None
Material Safety Data Product:	Nitrile industrial gloves
IATO/IACO	Not Restricted
Hazard Rating:	Not Restricted
D.O.T. Rating:	Not Restricted
Fire and Explosion Stability:	Stable
Flash Point:	Not applicable
Extinguishing Data:	Foam, Carbon Dioxide, Water

#### Normal Precautions

Ventilation:	Not necessary under normal conditions.
Equipment:	Not necessary
Spill/Cleanup:	Not applicable
Eyes:	Not applicable
Storage:	No special precautions necessary

#### Nitrile Chemical Resistance Guide

Acetic Acid	G	Mineral Spirits	G
Acetone	F	Motor Oil	E
Ammonium Hydroxide	G	Naphtha	F
Butyl Cellosolve	E	Perchloroethylene	F
Ethyl Alcohol	G	Sodium Hydroxide	E
Ethylene Glycol	E	StartingFluid(Ethyl Ether)	F
Gasoline	F	Stoddard Solvent	E
Hydrochloric Acid (10%)	E	Sulfuric Acid	E
Isopropyl Alcohol	G	Synthetic Oil	E
Kerosene	E	Toluene	F
Methyl Alcohol	P	Turpentine	G
Mineral Oil	E	Xylene	F

E=Excellent G=Good F=Fair P=Poor

#### GENERAL INFORMATION

Components used in the making of these gloves may cause allergic reactions in some people. Do not use if you know or suspect that you are sensitive to Nitrile without first consulting a physician. If allergic reactions do occur, discontinue use immediately and consult with a physician. These gloves are not made from natural rubber latex. According to a NIOSH (National Institute for Occupational Safety and Health) Alert, use of non-natural rubber latex gloves (such as Nitrile) is an effective method of preventing allergic reactions to natural rubber latex in the workplace. NIOSH recommends the use of nonlatex gloves (such as Nitrile) for activities such as automotive, autobody, aircraft service and certain kinds of laboratory work.

NOT FOR PRODUCT SPECIFICATIONS.

This product is not intended to protect against all chemical compounds. The user should determine the proper glove for a given application. Do not use for protection in a chemical emergency, in fire-fighting applications, against cryogenic agents, or in flammable or explosive atmospheres, as these gloves may burn.

**ORDERING INFORMATION**

Part Number	Size
09184	100-ct. Box - Medium
09185	100-ct. Box - Large
09186	100-ct. Box - X-Large
09191	100-ct. Box – XX-Large
09194	50-ct Box – X-Large, 6 Pack

**STORAGE**

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° and 28°C (46° and 82°F) unless otherwise labeled. Optimal storage is at the lower half of this temperature range.
