Spray Nine® Tough Task Cleaner & Disinfectant

Revised 04/08

PRODUCT DESCRIPTION

Spray Nine® Tough Task Cleaner & Disinfectant is an EPA – registered (#6659-3) cleaner, degreaser and disinfectant developed for the automotive, industrial, military and domestic marketplace. Spray Nine® is a multi-purpose cleaner, degreaser and disinfectant. The unique formula contains technology that weakens a soil's ability to cling to surfaces and lifts soils and traps them in a tiny bubble known as a micelle to be rinsed away. Spray Nine® is an alternative to solvent degreasers that harm the environment and exposes employees to poor quality air. Spray Nine® is a water based formula that is VOC compliant in all 50 states and contains no petroleum or chlorinated solvents.

Spray Nine® is an EPA Registered (#6659-3) cleaner. It kills 99.9% of germs in 10 seconds, disinfects against viruses in 30 seconds and against bacteria in 45 seconds (one minute for E. faecalis (VRE)). It helps meet OSHA blood borne pathogen requirements, helps control mold and mildew growth and helps prevent cross contamination of germs.
