## Technical Data Sheet

### Fast Orange PRO Clean Hand Cleaner

AAM Revised 04/18

#### PRODUCT DESCRIPTION

Fast Orange PRO Clean Hand Cleaner offers a safer alternative to harsh solvents and thinners used for removing varnish, polyurethane, stains and adhesives from hands. PRO Clean contains Dibasic Esters, Ethoxylated Alcohol Surfactant, Pumice, a Pleasant Scented Fragrance, and also contains Aloe Vera, Vitamin E, and Jojoba Oil to help keep skin feeling smooth after use.

#### PRODUCT BENEFITS

- Removes paint (latex and oil based), stains, varnish, lacquers, shellac, enamel, adhesives and resinous materials.
- Cleans without water.
- Contains biodegradable surfactants.
- Contains aloe vera, vitamin E and jojoba oil to help keep hands smooth, not sticky, after use.
- Pleasantly scented
- Lotion formula is supplied in a no-waste/no-clog self-dispensing container.
- Withstands multiple freeze/thaw cycles.
- VOC compliant as a Heavy Duty Hand Cleaner.

#### DIRECTIONS FOR USE

1. Rub hand cleaner into hands (do not use water) until paints are dissolved.
2. Wipe with dry cloth or rinse with water.

#### PHYSICAL PROPERTIES

|                                   | Typical Value           |
|-----------------------------------|-------------------------|
| Chemical Type                     | Dibasic ester           |
| Appearance                        | Gray lotion with Pumice |
| Odor                              | Floral                  |
| Specific Gravity                  | 1.06                    |
| Flash Point, Persky Martens, (°F) | >200                    |

#### GENERAL INFORMATION

For safe handling information on this product, consult the Material Safety Data Sheet, (MSDS).

#### ORDERING INFORMATION

| Part Number | Container Size               |
|-------------|------------------------------|
| 65226       | 15 fl. oz. Rocker Top Bottle |
| 65230       | 64 fl. oz. Bottle            |

#### STORAGE

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° and 28°C (46° and 82°F) unless otherwise labeled. Optimal storage is at the lower half of this temperature range. To prevent contamination of unused product, do not return any material to its original container.
